LAKSHYA YADAV

Full Stack Developer (MERN) · AI Applications • Final Year B.Tech CSE · Expected 2027

Agra, India | lakshyayaduvanshi28@gmail.com | +91-9258048164 | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Final-year B.Tech CSE student (AKTU) building MERN applications and AI-agent projects with LangChain and LangGraph. Hands-on work includes authentication, role-based dashboards, real-time updates and test-mode payment integrations. Seeking a full-stack or AI application development internship or entry-level role.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, C, Python
Frontend	React.js, Redux Toolkit, Next.js, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, Socket.io
AI / ML	LangChain, LangGraph, RAG (Retrieval-Augmented Generation), Multi-Agent Systems
Database	MongoDB, Mongoose, MySQL
Tools	Git/GitHub, Razorpay, Stripe, Cloudinary, Firebase, Vercel, Render, Docker (basics)
Core CS	DSA, DBMS, Operating Systems, Computer Networks, Software Engineering

PROJECTS

Khana Khajana - Food-Ordering Platform | MERN · Socket.io · Razorpay · Firebase

Live catalogue | Code

- ▸ Built role-based customer, shop-owner and delivery-partner dashboards with React, Express and MongoDB.
- ▸ Implemented Socket.io order updates and MongoDB GeoJSON delivery tracking; public city and restaurant catalogue.
- ▸ Integrated Razorpay in test mode with server-side payment-signature verification; not live payment processing.
- ▸ Added Firebase Google sign-in, Cloudinary image uploads and Redux Toolkit state management.

HiveNixAI - Multi-Agent AI Platform (in development) | MERN · LangChain · LangGraph

- ▸ Built Express gateway and auth/chat/agent services with Firebase sign-in and MongoDB chat history. Code
- ▸ Implemented a LangGraph router for chat, Tavily web search and coding flows using Groq via LangChain.
- ▸ Built React/Redux chat UI and browser voice mode. No verified public live demo; experimental agents remain in progress.

HireSense - AI Resume / Job Description Matcher | MERN · Groq / Gemini

Live app | Code

- ▸ Built PDF parsing, keyword matching and AI-assisted feedback with missing skills and bullet suggestions; authenticated analysis history in MongoDB. Verified upload-to-result flow with synthetic data.

Accredian Enterprise Landing Page Clone | Next.js · TypeScript · Tailwind CSS

Live Demo | GitHub

- ▸ Built a responsive selection-assignment clone with reusable components and section navigation within 48 hours; a personal assignment, not an official company product.

OPEN SOURCE CONTRIBUTIONS

data-peek — Open-Source Desktop Database Client — *TypeScript · ClickHouse · GitHub Actions CI*

Contribution snapshot: 4 merged data-peek PRs (#332, #333, #336, #338), verified Oct 24, 2026.

- ▸ Added ClickHouse column statistics, schema-explorer sequences and GitHub Actions smoke tests, including SSH-bastion and HTTPS coverage.

INTERNSHIPS & TRAINING

CodeAlpha — Full Stack Development Intern

- ▸ Completed project-based tasks (E-commerce platform, project management tool, real-time chat app) with GitHub + LinkedIn submissions per assignment cycle.

InAmigos (NGO) — Web Development Intern

- ▸ 2-week web development internship; earned completion and appreciation certificates and LOR.

Accredian — Full Stack Developer Intern Assignment

- ▸ Delivered a production-style Next.js enterprise landing page clone within 48 hours as part of selection assignment.

AI Agent Pipeline — Internshala Assignment

- ▸ Debugged and optimized a Python-based AI agent cost-reduction pipeline (token/cost optimization); set up GitHub Actions CI/CD deployment for the solution.

EDUCATION

B.Tech, Computer Science and Engineering

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh • Expected 2027
